INCOME FOR LIFE

With the Income for Life product, you can choose to use your full or part of your fund credit to buy an income for life and in return you receive the following:

- A guaranteed monthly income for the rest of your life.
- Your guaranteed income for life will rise in line with increases declared annually. These are based on the investment returns.
- If the returns on investment portfolio are negative your income will not increase, but it will never decrease.
- You have a minimum payment period of 15 years. If you die within 15 years, the income for life will be paid to your beneficiaries.

- **Example:** If you pass away 10 years after you retire your nominated beneficiary/ies will receive a lump sum equal to the value of the remaining income payments.
- The monthly income is subject to income tax. Should you want to know more about your retirement options, we offer retirement counselling for retiring members.
- Speak to your HR or contact MWPF about when the next counselling session will take place.
- Contact our External Interface Managers on the numbers below:
